DOG SAVES ALIA AWAITING MASTER'S LIFE KNELL OF DOOM

Faithful Animal Seizes Live Electric Wire Away From Grasp of Senseless Boy and Beats Death.

CHICAGO, July 14.—A dispatch to THE TRIBUNE from Colorado Springs, Colo., says:

Apparently seeking danger, for George Bradbury, aged seventeen, should he secure a firmer grip on a live electric wire, a bulldog made a leap at the wire and tore it from the hands of the senseless boy yesterday. The dog was killed instantly but his master escaped with a severe shock.

Bradbury started to push the wire aside with his hand when the dog made the leap to save his life. Bradbury was unconscious five minutes.

DEEPEST MYSTERY VEILS MURDER OF A YOUNG GIRL

No Clew to the Murderer or Possible Motive

TROY, N. Y., July 14.—More and more baffling as investigation proceeds becomes the mystery surrounding the tragic death of 19-year-old Hazel Drew, whose body was found in Teal Pond on Sunday with the skull crushed and a coarse string tightly knotted about the neck.

SHE WAS MURDERED

That she was murdered is certain but the most searching investigation has failed to reveal even the slightest clue to her slayer and no motive is discovered pointing even remotely to any reason why anyone should have wished to send the young woman to so horrible a death. She had no sweethearts as far as learned.

BEEN BY LABORER

From the moment Miss Drew left the home of her sister July 3 until her body was discovered, the only trace of her has been found in a story told by Frank Smith, a laborer with whom she labored.

Smith said last Tuesday he met Miss Drew not far from the spot where her body was later found. Officially he has drawn from Smith a statement that Rudolph Gundrum, another farm hand, was with him while he met the young woman wandering on the hill above Teal Pond.

Gundrum, Smith said, had started for Troy yesterday with a load of produce but had not returned to the farm last night or early today.

No intimation will be given out by the penitentiary officials as to the day or hour of Alva's execution but it is not believed that the sentence will be carried out until the last of the present week.

Peter McArdle silent to name of person who fractured his skull.

(SPECIAL TO THE TRIBUNE)

SAN FRANCISCO, July 14.—I won't tell you who struck me. This was the answer a TRIBUNE reporter received from a man named Peter McArdle who was brought to the Harbor Hospital at an early hour this morning in semi-conscious condition and evidently suffering from a serious wound in the region of the left temple.

His injuries were given attention by the hospital staff and the man was put into a bed in one of the hospital wards. He was more thoroughly examined because the attending surgeon was under the impression that McArdle's skull had been fractured.

Later this morning the injured man recovered his faculties but refused to give any information in regard to the person who had inflicted a blow which may yet

be fatal.

HOT SPRINGS, Va., July 14.—From present indications Judge William H. Taft's letter of acceptance will be a judicial scolding of the Democratic platform adopted at Denver. All day yesterday and later in the evening Mr. Taft's time was devoted to a study of the platforms of the two parties. When he had concluded his labor he was not only an authority on the work of the

JOHN CLAUDIANES, WHO HAS MADE A CONFESSION THAT HE DYNAMITED THE GALLAGHER HOUSES.

SUSPECT ARRESTED

(Continued from page 1.)

They would put up my expenses. I will tell them who done the dynamite and then I get \$1,000 and if you tell them where your money comes from, they'll not prosecute and you get \$5,000 for confession. I am going to give the whole thing away.

"Now you dirty — — — you turn me down and made a trump out of it. If you don't send me some money by Saturday night I am going to go away, telegraph send it to John Claude, 16, Dyngton Ave. S. F. I am going to give you away as soon as the庭庭 give my exp. I told them I know the fellow I told them were the dynamite combed. Gold told I never told them a name. I told them the party is to Oregon that they confessed to me up there. Send some oil \$1,000 you told everybody you got.

"You don't care lose me, I will wait to Sat 8 o'clock or Sun 8 o'clock." There is no signature to this letter. It is addressed to Peter Claudianes, Telegraph Oyster House, San Fran.

The police detective of San Francisco has been engaged for two days in searching for Peter Claudianes, but was not able to locate him.

CONFESSES TO LANGDON:

In making his confession to District Attorney Langdon the man willingly admitted that he was the actual perpetrator of the crimes in each instance. Only on one point did his tongue fail to give voice to the secrets he has carried with him since the commission of the crimes. Nothing could draw from him a definite statement of who his partners were or who actually planned and prompted the crime and paid for its commission.

Whether this reticence is from actual ignorance or from a desire to shield the brother he accused in his letter neither the District Attorney nor those others who have interviewed me could be positive.

MAIN POINT UNREVEALED:

He has succeeded in giving the impression, however, that he actually does not know for whom or why he carried out the plot, but that he merely carried out the paid agent of the real conspirators.

Peter Claudianes confessed to District Attorney Langdon that he planned and carried out the actual explosions for money. Though he refused to disclose who hired him he admitted he received part of the money. In all he said he was to get \$5,000.

CONFINITY:

Claudianes told the District Attorney that he had no personal enmity toward Gallagher, and that what he did was solely for the money it meant to him.

He confessed that he had watched the Gallagher house in Nineteenth street almost every day and night for three weeks, and before he finally succeeded in bringing about the explosion had made three unsuccessful attempts.

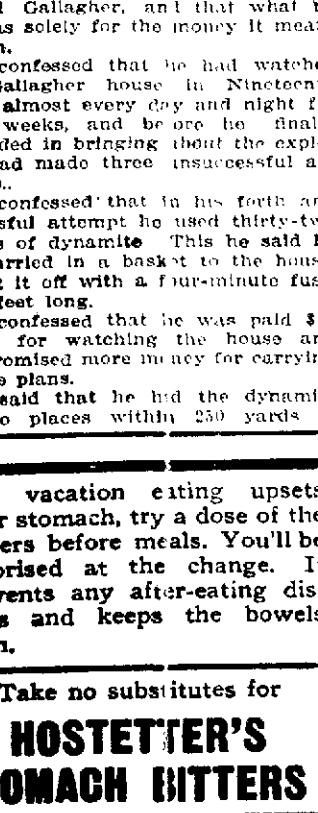

He confessed that in his forth and successful attempt he used thirty-two pounds of dynamite. This he said he had carried in a basket to the house, set it off with a four-minute fuse, left fast.

He confessed that he was paid \$10 a day for watching the house and promised more money for carrying out the plan.

He said that he hid the dynamite in two places within 250 yards of

FRIENDS OF LYNCH NOT SURPRISED AT RESIGNATION

May Take Active Part in the Taft Campaign

While the fact of Bank Commissioner John C. Lynch's resignation came as a surprise to the general public it was well known among his personal friends that he had for some time past contemplated such a step.

LETTER TO GOVERNOR.

His letter to the governor tendering his resignation was as follows:

"James N. Gillett, Governor of California, Sir:—I respectfully tender to you my resignation as a member of the Board of State Bank Commissioners, to take effect upon the appointment and qualification of my successor.

Respectfully, JOHN C. LYNCH.

SUCCESSION APPOINTED.

The Governor has appointed as Mr. Lynch's successor on the Bank Commission William C. Watson of San Francisco. Mr. Watson has had considerable experience in banking business in Redding, Napa, and San Francisco. He is the father-in-law of Thomas Doder who represents Shasta county on the Republican state central committee.

WELL KNOWN IN POLITICS.

Mr. Lynch has had many years been a conspicuous figure in the politics of this state. He served in the assembly for three terms, and was speaker of the house in 1895. He subsequently entered the federal service as internal

revenue collector in San Francisco. While in this position he won the highest possible commendation from the department at Washington for the efficient and satisfactory conduct of his office, which was declared to be the best managed agency of the sort in the country.

Pressure of his private business interests caused Mr. Lynch to relinquish his government position and he later, after much persuasion, consented to serve on the Bank Commission and was appointed last year.

STANDS WELL AT WHITE HOUSE

Mr. Lynch has always enjoyed the full confidence of the White House and among his intimate friends it is believed that he has retired from the Bank Commission in order to take an active part in the Taft campaign without the embarrassment that would naturally result from holding a state office. Mr. Lynch has always been looked upon as one of the greatest organizers in the Republican party in this state and if he does take an active part in the campaign his skilled generalship will soon be in evidence.

In referring to Mr. Lynch's resignation Governor Gillett said:

"His resignation was received and held until I found a man who was qualified to fill the bill, then it was accepted and his successor appointed. Further than this I do not know why the resignation was presented."

Top liners indeed are the wonderfully trained troupe of birds marshaled by Mile. Marcella at the Bell Theater this week. The almost human intelligence displayed by this array of trained cockatoos, ravens and eagles is nothing short of marvelous, and the varied feats of which these feathered actors are the masters makes the act an unusually strong feature of an exceptionally good bill.

MARCELLA AND HER WONDERFUL TROUPE OF TRAINED BIRDS.

BIG FEATURE SHOW AT THE BELL THIS WEEK

MARCELLA AND HER WONDERFUL TROUPE OF TRAINED BIRDS.

The best acrobatic act seen at the Bell for many a day is that presented by those peerless performers, the Webb-Rambo troupe of Rome, Italy—the famous European acrobats and hand-to-hand balances. The feats of strength displayed by the strong young boys of the organization are unusual, while the girls of the act presents a series of high-class tumbling and balancing acts most vigorously received by the enthusiastic audience.

Bert and Lottie Walton are seen in a fitting, graceful and novelty roller skating act in which the male member of the duo furnishes the comedy, while Miss Walton executes some very clever dances.

More comedy is furnished by Fitzgerald and Wilson, eccentric singing and talking comedians. Their songs and parodies were well received and brought out a score of laughs and enough fun to equal an ordinary vaudeville program. They are a cracking road comedy duo, and had to sing themselves hoarse before the crowd would let them go.

The new riotion pictures continue to weave.

WOMAN TOOK DOSE OF POISON

(Special to The Tribune.)

SAN FRANCISCO, July 14.—Mrs. Ethel Rogers, who was found unconscious from poisoning this morning at the Daniel Hotel, a Mason and Eddie streets, died at the General Hospital at 1:30 o'clock. She never regained consciousness enough to tell where her home was or with what family she was connected.

The clerk at the hotel said he knew nothing about her antecedents save that Miss Rogers had stopped at the hotel two or three times during the last six months. Whether she took poison with solid intent or was addicted to the use of opium in some form and accidentally took an overdose is not known.

She was about 30 years of age and dressed in rich clothing throughout.

Her identity is not definitely known.

At the meeting of the Council last night the resolution of the Independent League party, recently adopted, at a meeting of the County Central Committee, with a request that the Council take early action on the charter question, was read and placed on file. The petition signed by 5000 taxpayers which was filed with the council on Monday night, was read by City Clerk Thompson, who, after saying that the petition had been presented by the Independence League, admitted his mistake after his attention had been called to the error.

NOT POLITICAL MOVEMENT.

J. E. Henderson, chairman of the County Central Committee of the Independence League, said that the charter movement was a people's movement and while the Independence party was behind it, there was no desire to make politics out of the affair.

At the conclusion of addresses by a number of visitors to the hall, Mr. Kilian said that he was in favor of an early action on the charter question, was read by City Clerk Thompson, who, after saying that the petition had been presented by the Independence League, admitted his mistake after his attention had been called to the error.

OAKLAND'S BEST OPTICIAN

POLICE TO CARRY ON LUCK GAME AT IDORA DON'T WANT NEW TERM FOR PASTOR

Church Votes to Withhold Invitation for Dr. Tanner's Return.

Members of the Oakland police department, from Chief Wilson down, will turn ambler on the afternoon and evening of July 18, when the grand carnival will be pulled off at Idora Park for the benefit of the Widows' and Orphans' Aid Association. One of the features of the entire affair will be the raffle wheel, by means of which the many beautiful gifts donated by the merchants of this city will be disposed of and every one in attendance with a spark of gambling instinct in their make-up will take a fly at the wheel.

It is whispered around that those awhit gambling at the wheel will be taken into custody and haled before the coroner court and fined for their incarceration, but after saying their dues they will be directed back to the wheel by some of the blue coats who will act as cappers for the game. Everything will go on the day of the carnival and a full time is assured all who attend. It is not probable that the large grounds and pavilions will accommodate all who will be present in the merrymaking.

JUBILEE SINGERS.

The colored jubilee singers and creole band, engaged for the occasion, will be provided with a large tent, located near the skating rink, in which a genuine Southern plantation show will be given. The singers will have daily rehearsals and performances presented in a very professional show of like nature. The large pavilion in the park will be given over to the dancers throughout the day and evening. Captain Charles Beck, the "Adonis" of the force, will be in charge of the dancing pavilion. He may do some fancy dancing himself and in the quiet of his room which can be given a quiet resting place or two to get in trim for the time in question.

LADIES WORKING HARD.

The ladies' committee proved to be composed of the best workers connected with the carnival movement. It is due to the women that so many successful and costly affairs have been put into the raffle. Pretty helpers have already been selected to preside over the various candy, ice cream and lunch stands and they will assist in every manner possible toward making the affair a huge success as promises to be.

Final orders were well multiplied during the festive day and night and the grounds will be brilliantly illuminated. James Tulling, manager of the park, has been chosen chief of police for the park on the day and evening of the carnival.

OFFENDERS ALONG BORDERS TABOOED

Government to Increase Army Posts on Mexican Line to Keep Peace.

WASHINGTON, July 14.—Ambassador Clegg today was in conference with Acting Secretary of State Bacon regarding the alleged violation of the neutrality laws along the Mexican border. He was given again the most positive assurance of the intention of this government to prosecute all neutrality offenders.

An increase of the army posts on the border is possible, as Mexico has already given her intention of adding to the number she already has. An effort will be made for a more liberal application of the extradition laws so that persons claiming immunity on the ground that the persons for whom they are political but who it is found afterwards have been guilty of participation in raids, may be extradited.

The situation in Central America generally also was discussed. Mexico and this government are also in thorough accord on the subject.

FRIENDS SURPRISED WHEN COUPLE WED

SAN FRANCISCO, July 14.—Friends of Miss Louise Hollister Cooper and Hewitt Davenport were looking forward to the wedding scheduled for August when suddenly these two decided that August was a long way off and they were married at 5 o'clock yesterday afternoon at the home of Mrs. Elizabeth Davenport on Pacific avenue.

Mr. Davenport came to the city from Spots Lake, Idaho where he has charge of the Melrose Baptist Church in an official meeting voted by a small majority, not to extend an invitation to Rev. Walter E. Tanner to return to the pastorate of the church after the expiration of his present year's service, which closes September 1.

The action of the congregation comes as a distinct surprise to Dr. Tanner's friends in Oakland and Alameda county. During his short residence in Melrose the young clergyman has been an enthusiastic worker in the cause of civic improvement.

ACTIVE WORKER. He was one of the most active members of the Good Government League of Melrose.

In discussing the result of the election today a friend of Dr. Tanner said: "That's the Melrose Baptist Church should have voted to endorse the work of Rev. W. E. Tanner by refusing to call him pastor. It is very remarkable."

Furthermore, it will be a disagreeable surprise to all of the better element in that community, and those who voted against his being retained will have some difficulty in giving a satisfactory reason for their action.

LAUGH IN SEEVE. "No one with the members of the Board of Supervisors of Alameda County here of the action of the Melrose Baptist Church they will laugh in their sleeves and congratulate themselves. Furthermore, they will have cause, and hopefully so to conclude that the members of Tanner's church were not in sympathy with the work he has done. Besides, Morgan and Meier, III keepers of immortal records will without doubt put forth their best efforts to establish those places that were closed principally because of the work of Dr. Tanner."

Delmonte, It Is Said, Cannot Be Held for Buchneff Murder.

(Special to The Tribune.)

SAN FRANCISCO, July 14.—The impression obtained in police circles that Delmonte, the man who has been suspected of having killed little John Buchneff, at the bins of the Sanitary Reduction Works Friday last, will be discharged tomorrow, for the reason that proof sufficient to convict him of the crime has not been secured by the police.

This morning official Italian Interpreter DeMartini took Delmonte to the scene of the alleged murder and pointed out to him every part of the works on which he had been busy on the day on which it is alleged the lad lost his life. The man under suspicion said that while he had shunned some hours away from the works on Friday, he could not say that any one of them was the Buchneff boy.

Delmonte states that it had been the purpose of Delmonte's friends to get the lad out of prison on a writ of habeas corpus, but that that purpose had been abandoned, as they felt that Delmonte would have to be discharged because there was nothing against him.

SAN JOSE, July 14.—The Grand Jury this morning, accompanied by city officials, went to Alviso to investigate the outlet of the city main sewer. Residents of Alviso complain that the Dumbaron embankment shuts off the sewage, and it collects and overflows on adjoining lands, creating a nuisance.

STUDENT IS CAUGHT IN THEFT

Makes Money Taken in for Greek Theater Concert, Confesses, Makes Restitution, and Is Not Prosecuted.

BERKELEY, July 14.—The attempted embezzlement of nearly \$200 from the funds of the musical and dramatic committee of the university of California has been disclosed through a confession made by Thomas Steeves, a student in the class of the Greek theater committee and the subsequent recovery of the money. Steeves' confession has followed, and the Greek theater people are much gratified. "The people are not easily engaged in an endeavor to such what threatened to become a scandal."

The trouble occurred after the concert given on the evening of the Fourth of July, but the loss of the money was discovered until the following Monday.

ADVANCE SALES

Steeves, at that time had charge of the advance sales of tickets for the concerts and on Saturday afternoon, July 4, was informed by telephone by J. W. McJunkin, of "The Sign of the Bear," that 157 was awaiting the committee for advance sales of the concert to be given that evening. McJunkin was anxious to have the funds taken from his safe for safety, so he telephoned, in company with another student named Henderson, called a few minutes later and hurried the funds with him to the Delta Upsilon fraternity house where he was living.

MONEY IN STEIN

Instead of placing the money in a desk or safe, Steeves carelessly dropped it in an ornamental steel on the mantel piece. The next morning he was hastily called to San Joaquin Hall, the home of the Greek theater, to Henderson to look out for the funds. When Henderson took a search of his jar for the money, he found instead of money a typewritten slip of paper with the word "Thanks" on it.

STEVE CONFESSES

Henderson, to clear his own skirts, promptly reported the matter to Professor L. N. Chapman, chairman of the musical and dramatic committee, who in turn notified the police. The investigation led to Steeves, who, confronted by Detective Woods, confessed to taking the money. The next day he returned the money and no further attempt at prosecution was made. Steeves was a junior at the university and prominent in military affairs. It is not expected that he will return to the stage.

BERKELEY WOMAN WINS DISTINCTION

GETS PRIZE FOR DESIGN FOR EXPOSITION SEAL

MRS. GERALD LEESON, FORMERLY MISS ADELAIDE HANSOM.

Comes From Alaskan Home to Visit With Relatives in California.

SCHOOL LOTS GO UP IN A HURRY

Since Bond Money Became Available There Has Been Advance in Price of Property.

BERKELEY, July 14.—Mrs. Gerald Leeson, who was formerly Miss Adelaide Hansom, the well-known artist, is to visit Berkeley during the latter part of the month, coming from her home in Treadwell, Alaska, where her husband is identified with the great Treadwell gold mine.

Mrs. Leeson is the daughter of town Auditor Hansom of Berkeley and was awarded the prize for the best design for an official seal for the Yukon next year. She is well known in art circles all about the bay and her portraiture work has won her fame. Her illustration of the Hubalyt brought her into national notice about two years ago.

Mrs. Leeson is a graduate of the Hopkins school of art and before her marriage had a fashionable studio in San Francisco.

After wedding about seven months ago was a society affair of Berkeley. The honeymoon was spent in Alaska where she has since resided.

EXPECTS FAIR PLAY. President Lewis says he has enough evidence in his possession to satisfy men and property owners of Berkeley to anticipate that the board will be able to buy the school house sites for the same prices that ruled before the bond issue was carried.

Toastmaster Calls on Prominent Members for Speeches.

ALAMEDA, July 14.—Four generations were present at the golden wedding celebration of Mr. and Mrs. Charles Sturm of 783 Franklin avenue, held today at the home of their daughter, Mrs. Kate Sturm, 196 Twelfth street, Oakland.

The aged guests are in excellent health and enjoyed fully their golden wedding Jubilee today. Mrs. Henry Harris of Alameda, Mrs. Schwab's daughter, was at the celebration, accompanied by her little 2-year-old daughter Ethelore. Mr. and Mrs. Sturm were married July 1, 1878, in New York City. Mrs. Sturm was Miss Clara Peck, her mother having been a true California pioneer; they removed to San Francisco in the early 70's. Mr. Sturm settled in Alameda at that time a small town of about 1,500 inhabitants. He was one of those instrumental in organizing the old volunteer fire department, and possessed a memorial badge presented to him when assistant chief of the department.

He is well known. In Alameda and for many years was in business in the West End. He was a heavy loser in the earthquake, as his house on Eighth street was shaken into ruin being one of the few Alamedans who sustained serious loss by the calamity over two years ago.

QUARRYMAN INJURED BY LOAD OF GRAVEL

BERKELEY, July 14.—Charles Huntley, a laborer in the Spring Construction quarry in North Berkeley, was caught under a load of gravel he was unloading about a block from his night shift home on the inside of the right leg broken. He was treated at Roosevelt Hospital. Huntley is a recent arrival from Buntleigh, Maine and is 32 years of age.

COUNCIL APPROVES OF OFFICER'S PROMOTION

ALAMEDA, July 14.—At the City Council meeting last night the recommendation of the Police and Fire Commission to raise the salary of Officer Bradley from \$90 to \$100 and to raise his rank to that of a sergeant, was approved by the Council. The matter of raising the salary requires a special ordinance, was referred to Councilman Magagni.

TO HAVE AN AUTO FIRE ENGINE

Alameda Councilmen in Favor of Power-Propelled Machine to Save Horses in Running to Fires.

ALAMEDA, July 14.—The greater part of last night's city council meeting was taken up with discussion of the merits of self-propelling gasoline fire engines and steam engines of the Waterloo variety. In their report which was read before the council last night, the police and fire commissioners expressed themselves as greatly favoring the Waterloo engine, a self-propelling gasoline engine.

Fire Commissioner Chapman, who read the report, declared that the auto engine would give much better service to the city as well as being a saving of expense. There were quite a few persons in attendance at the meeting and considerable interest was taken in the discussion. Secretary Russell, the Chairman of Committee spoke on the subject, saying that his commission had passed resolutions endorsing the fire commission in advocating an auto engine. "It would be a good thing for the city," he said, "and would indicate that we were abreast of the times."

FAVORS AUTO ENGINE. The Merchant, an Alameda garage man, was asked to express his opinion on the subject, and he replied, "I believe the selection of an auto fire engine is a step in the right direction. Although the improvements on the automobile will probably never cease entirely I believe that the automobile is now at a stage where the improvement will be much slower than formerly. The city of Alameda would do well to justify itself in purchasing an auto fire engine if it is found that the engine in question comes up to the requirements of the city, I believe that it would be safe to purchase it now."

Commissioner Lathem stated that the auto fire engine would cost about \$15,500 more than steam engine to make it pay off, but he said that the saving with an auto engine would soon offset this difference. He also made the point that with an auto the city would be free from the possibility of being accused of cruelty to animals. "There are times when the horses must be driven to a fire right after they have already attended one. The city of Alameda is not to be excused for cruelty to animals and more than any individual," he said.

WATERLOO ENGINE. The Merchant, an Alameda garage man, was asked to express his opinion on the subject, and he replied, "I believe the selection of an auto fire engine is a step in the right direction. Although the improvements on the automobile will probably never cease entirely I believe that the automobile is now at a stage where the improvement will be much slower than formerly. The city of Alameda would do well to justify itself in purchasing an auto fire engine if it is found that the engine in question comes up to the requirements of the city, I believe that it would be safe to purchase it now."

It was expected that Congressman Duncan McKinlay could be secured to speak at the meeting, but Congressman Knowland announced yesterday that McKinlay would be unable to be present at the meeting.

TAFT-SHERMAN-KNOWLAND CLUB TO HAVE ORATORS

Governor Gillett and Others Speak in Alameda Tonight

ALAMEDA, July 14.—Tonight the big rally of the Taft-Sherman-Knowland Club will be held in Elmhurst hall, Bay Station. Governor Gillett, Congressman Knowland, State Senator Bates and Assemblyman Frank Otis are to speak. The governor will be the principal speaker and there is a wide interest being manifested in his appearance in Alameda.

A band of music and the Elks quartet will be in attendance. The band will play outside the hall for a half hour, beginning at 7:30 o'clock. The band will not play inside the hall, save possibly a closing number while the audience leaves. The Elks quartet, however, will sing at the opening and closing of the meeting and between the speeches.

BRIEF SPEECHES. Though there are four speakers on the program the addresses will be brief and the meeting will open promptly on time.

A number of prominent Republicans from about the bay will be present. This is the first public appearance of Governor Gillett during the present campaign. The governor is not only a popular governor and a forcible speaker but he is also a sound business man and his ideas are framed in sensible ideas which convince all of his sincerity.

KNOWLAND'S ADDRESS.

Congressman Knowland will speak, and the Alameda representatives in the legislature will make short talks. The advisory committee of the Taft-Sherman-Knowland Club will act as ushers and the seating of the audience will be carefully attended to.

It was expected that Congressman Duncan McKinlay could be secured to speak at the meeting, but Congressman Knowland announced yesterday that McKinlay would be unable to be present at the meeting.

INSURANCE WAR NEAR CRISIS

Berkeley and Oakland Underwriters at Odds—One Company Openly Declares Breach From Local Board.

BERKELEY, July 14.—The war in the Oakland board of underwriters goes along merrily. In reply to the meeting of Saturday night last when W. N. Clay was elected president, Charles Harris had called for a meeting of the board for Tuesday. Harris is the man who was elected president at the meeting last Wednesday night, and represents what is known now as the Berkeley faction of the fire insurance agents.

Harris' call cannot be considered as other than a plain notice to ignore the officials elected by the Oakland agents at their meeting Saturday night, and the intention to go ahead with the organization of "Berkeley Plate."

PREPARE TO GO ON. Coming on the heels of Harris' call for a meeting, is the announcement made in Berkeley this morning that five of the big companies in San Francisco are preparing to withdraw their support from either faction and will act independently until the row is adjusted. The companies concerned are the Springfield Astral, New York, Fire Underwriters, Northern and New Zealand, The London and Liverpool and Globe and the Royal, it is reported, are preparing to follow suit.

STRIFE STARTS. The following letter is being sent out by the Northern Insurance Company to brokers in San Francisco, and is typical of the attitude many big companies are assuming to the factional strife now on:

"Dear Sirs:—Please give notice that the Northern Assurance Company, having concluded its agreement with the Oakland board of underwriters, will be pleased to consider business on its property located in Oakland, and will allow full commission permitted by the rules of the board of underwriters.

ALAMEDA WATER MAINS TO BE ENLARGED SOON

ALAMEDA, July 14.—A communication from the Board of Health was read at the meeting of the City Council last night calling the attention of the council to the poor pressure now in the water mains of the city. Chief Krauth of the department reported that the pressure at times was very low.

"The company has already laid a 16-inch main on Twenty-fourth Avenue," he said, "and has promised to lay a 12-inch main to Park street at once. The city certainly needs it. I suggest to the council that a letter be sent to the company urging them to have the work done as quickly as possible."

It was moved and carried that the clerk write to the People's Water Company, under the completion of the work.

ALAMEDA BREVITIES

Rob Fruit Trees.—Several pestiferous bugs were reported to the Alameda police today by G. J. Lindsey. Lindsey, who lives at 217 Lincoln avenue, says that the bugs are continually entering his back yard and robbing his fruit trees. An officer was sent to admonish the young

Issues Signs.—Secretary Ralph Russell of the Chamber of Commerce today received printed copies of the signs bearing the inscription, "Member of the Alameda Chamber of Commerce," which he intends to issue to all merchants belonging to the organization.

COLLIN MOTH SPRAY. W. H. Vlock made an address on the results of spraying for the collin moth in Monterey and Santa Cruz counties.

Eastern insect collectors and collectors who have been to the Pacific Northwest, say that the collin moth is still rife among the cottonwood trees in the Oregon mountains.

Assistant Bookkeeper R. Benton of Berkeley discussed the best forms of bees in the state with the relative amounts of honey secured from each source.

MOSQUITO CAMPAIGN.

J. S. Hunter told the conference all about the mosquito campaign that has been waged in San Mateo County for the past year and the results obtained. Hunter was selected by the big property owners about Burlingame and other fashionable resorts along the peninsula to rid the neighborhood of the pest after he had done good work at Stockton and other mosquito infested communities along the San Joaquin River.

The opening address was made by J. H. Day on the entomological problems connected with San Benito and especially in the vicinity of Hollister. Day was formerly field assistant and is now horticultural inspector of the county.

Kidney Troubles May Be Sapping Your Life Away—Oakland People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, look to the kidney function for the cause.

Doctor J. E. Wilson, 282 Cedar street, says what I would have done had not been for the relief when I received from Dr. Dow's Kidney Pills.

He was a skilled Chinese scholar, speaking the language fluently, and was educated by professors in Peking, the Oriental capital. Only last week President Roosevelt sent to the Senate his appointment as Consul at Swatow, his post heretofore having been at Poi Tai Ho.

He was promoted from the position of acting Consul, and was assistant secretary to the legation at Peking in 1901.

STATE RESTS IN THE ADAMS CASE.

GRAND JUNCTION, Colo., July 14.—Without introducing any evidence, referee Steve Adams nullified the State's morning action in Adams trial on the charge of murdering Arthur Collins, the mine superintendent, who was shot at Colville on the night of November 19, 1902. Judge Sprague found the defense engaged in perjury during the trial and gave the state an opportunity to register. For this reason, County Clerk John C. Williams decided to adjourn the trial until the next day, when the defense would have an opportunity to present its case.

LEADER NAMED TO CAPTURE PRIMARY

Representative Chosen for Party at Mass Meeting of Democratic Club.

(SPECIAL TO THE TRIBUNE)

SAN FRANCISCO, July 14.—At a mass meeting held at the Hotel Royal last night, Dr. George Rock was chosen as leader of the movement in the club to capture the primary on August 1st, from the Republicans. The party has been most anxious to have the election delayed until the 15th, but Dr. Rock's voice carried the day.

JOLLY MUSKETEERS IS GOOD DRAWING CARD

That the annual meeting of the Jolly Musketeers at 1120 Franklin will be as popular as the first was the chief topic of discussion at the meeting held yesterday. The performance was in another than it was last week and not for a moment did it credit to the State Director, H. G. Swickard, and Musical Director Paul Stoddard for the snap that they have put into the production.

Dr. Louis F. Wiley, Thomas H. Perceval, Frank Walter, Carlotta and others made up the company of last week. Miss Mary and Miss Leslie were delightful. Perceval was in splendid voice particularly in the ensembles and effectively dispelled my doubts that may have been harbored regarding his ability to play heavy comedy roles for he gave a very amusing performance.

It was not only in the caricature as stage director that he showed off his ability. He sang the buttons, too, and sang it most artistically. Joseph W. Garty, Fred McEvoy, Bill Morris, C. G. Poutre and Arthur Neissner made the most of the opportunities afforded them.

All this week the Jolly Musketeers will be given. It will be followed by a notable effort on the part of the Opera Park Opera Company. Next Monday evening the opening performance of the new production of "The Love of Life" will be given. This opera scored a tremendous success in New York when presented there by Hammerstein but it was never heard in the West. It was offered as a grand opera but has been converted into a highly amusing comic opera by a radical adaptation of the libretto. The beautiful music however has not been sacrificed. There will be no stinting in the preparation of the costumes and scenery. The production will be made the most pretentious of the year.

Quartering Burns on the Taxpayers.

Mr. Langdon has presented his plan for expending the \$70,000 appropriated by the Supervisors to defray the extraordinary expenses incurred by the District Attorney's office in criminal prosecutions. As THE TRIBUNE stated at the time this extraordinary appropriation was requested, Langdon's proposition is merely to shift the cost of William J. Burns and the band of spies he has drawn to his standard from all parts of the country from Spreckels, Phelan & Co., to the shoulders of the taxpayers of the city.

This band o' private mercenaries is to consist of twenty-six drawing monthly stipends aggregating \$4375. Burns is to receive \$625 a month. His myrmidons will draw \$150 a month each. Thus with the co-operation of the Mayor and the Board of Supervisors, Spreckels retains his secret police, but pays them out of the public treasury and clothes them with the authority of law.

In presenting his proposition Langdon expressly disclaims any intent to reflect on the competence and integrity of the police department. He could do no otherwise, since the police department is controlled by the same power that controls Burns and the District Attorney's office. Spreckels selected Biggy for the head of the department, and Biggy reorganized it on a Spreckels basis. The city detective force was made subservient to Burns. Yet the public is now informed that the ordinary forces authorized by law to detect and suppress crime and aid criminal administration are inadequate.

The whole business is a plain walk around. The District Attorney is Spreckels and Phelan. The Mayor, who recommends the program phonographed by Langdon, is a puppet for the same parties. The Supervisors act under direction of Spreckels and Phelan, and Burns and his band, including the hoodlum ex-Supervisors, are in the employ of the same men. This completes the circle.

Langdon says he has just thought out the interesting scheme he proposes. The scheme was thought out for him before he was told to ask the Supervisors for the extraordinary appropriation. He never thought anything about it. He has simply obeyed orders, just as the Supervisors did, as the Mayor has just done, and as the Supervisors will do again.

It remains to be seen how long the citizens of San Francisco will submit to the peculiar despotism that has been set up in their city, a despotism that is prostituting alike the machinery of justice and the political powers of the municipality in furtherance of a conspiracy of financial piracy and private vengeance. However, since they submitted tamely to the infamies of the Schmitz-Rueg regime they seem prepared to submit to infinitely greater infamies practiced with far less scruple and with vastly more sinister intent, infamies which poison every spring of justice and purity in civil administration.

California's Interest in Tariff Revision

The issue that is of first importance to California in this Presidential campaign is the tariff. The products of this State are all protected. Many of them, as its fruit, are peculiar to it, and there is no large sentiment in the East favoring an especial fostering duty on the same. It may even be that the East, being such a large consumer of these products, will be lukewarm as to the continuance of the protection they now enjoy. Human nature must always be reckoned with.

Both parties having declared for revision of the tariff—the Republican with a view to readjusting it wherein the character of industry has changed, and the Democratic from a constitutional purpose to discredit it because it is Republican—California is more concerned than other States. This State is interested in having the tariff revised by friendly hands: by the political party whose policy has always been protection to American industries, and not by the party that has pretended to believe in free trade, and whose only accession to power in fifty years was characterized by an assault upon the tariff that precipitated the most disastrous panic the country ever experienced.

For the people of California to feel any other way about the tariff would argue that they do not know where their interests lie. It is evident they understand the situation in a general way; but it may be they are not fully alive to a deliberate attempt that is being made to work their undoing.

A harmonious and experienced delegation from California in the national Congress will find its hands full, and perhaps a little more than full, in safeguarding the interests of this State when the tariff is taken up for revision. The delegation should thus be solid and certainly Republican, and its efficiency will be greatly heightened if every member has that prestige that comes from familiarity with his duties and the interests of his constituents through previous service at Washington.

The interests of California in this regard are paramount. They outweigh all personal considerations as to candidates. The efficiency of the Congressional delegation would be greatly lessened with new members even of the dominant political party; while if it is distracted by new members of a discordant political faith its power in the right direction will be vastly lessened.

This being the fact, it is very important to understand what mischief lurks in the activities of the political formation which has assumed the name "Lincoln-Roosevelt League." It comes before the people wearing the mask of Republicanism. It pretends to be an internal reform convolution of the Republican party. This pretense is sham and humbug. Every Californian alive to the honest welfare of his State should realize that it is nothing less than an attempt to betray the State's best interests through defeating some of the Republican candidates for the national legislative body. It is the plan of this so-called league—fashioning its name from those of two eminent Republicans to deceive as to its character and purpose—to combine with a Democratic faction in efforts to defeat straight and certain Republicans. Apparently those who stand at the head of the movement have no thought or care for consequences. Not being Republicans their indifference may be natural. But their double-dealing should be unmasked, and Republicans should be on guard.

English View of Presidential Contest.

The cabler criticisms of the London press on the Presidential contest and the personalities of the candidates is interesting. It is understood, of course, that the perspective is a long one, and that the English mind is not oversusceptible to the political situation in all its intricacies.

The Daily Chronicle puts Bryan and Roosevelt on a par. It is

THE HUMAN TALKING MACHINE.

in an apparent mood to flip a coin to see which should have the Presidency.

The Daily Graphic says the contest is purely a question of persons. It can't see anything else to it.

The Saturday Review thinks Bryan has an advantage over Taft, being more prominent, together with "the possibility of obtaining stronger support from the Pacific slope" by the adoption of Congressman Hobson's naval views.

The Times, the journal with a particular reputation for sizing up the politics of other countries, thinks Bryan will go to the wall. It says his "speeches and writings seem to be as defective in originality and statesmanship as they are in clearness and coherence of thought." "Still, he has personality," etc.

The one criticism among these likely to be provocative of mirth is that of the Saturday Review. And the Saturday Review is not a humorous journal, either. That Bryan is to get help from the "Pacific slope" that will give him signal advantage in the Presidential race, and this because of the adoption of Congressman Hobson's "naval views," must be accepted as an attempt, knowingly or unknowingly, to trifle with a serious subject. If the dispatches concerning the Denver convention that were sent to England were very full it would have been seen that Hobson was regarded as a sort of nuisance around there. They almost threw him out. When he made reference in one of his harangues to his adventure on the Merrimac, a delegate who was wholly without reverence for heroes, expressed regret that this one did not accompany the craft to the bottom of Santiago bay. But even if Hobson had been listened to respectfully, and his ideas carried weight, connecting him and his "naval views" with the vote of the "Pacific slope" in a sense that the electors of the "slope" would be thus influenced in favor of Bryan, is droll ignorance of the situation, indeed.

Perhaps it is a mere coincidence that the alleged confession of a vagrant Greek in regard to the dynamiting of Gallagher's house was sprung on the public simultaneously with Langdon's proposition to create a private detective department headed by William J. Burns, paid by the city at the service of the District Attorney's office. This force has all along been at the service of the private prosecution, but it has hitherto been paid by Rudolph Spreckels and his associates. It is worthy of note that the demand that the Burns corps of private detectives be paid by the city is followed by a characteristic sensational disclosure which is clearly intended to inflame public sentiment and forestall protest against the proposed method of expending the \$70,000 set aside for extraordinary expenses incurred by the District Attorney's office in connection with the prosecution of the so-called graft cases.

U. S. ATHLETES LEADERS IN OLYMPIC GAMES

AMERICA SCORES FIRST VICTORY AT BIG GAMES

In All Events Sons of U. S. Are Well Up in Front; Break Records

LONDON, July 14.—The morning of real work for the Olympic games, which were opened by King Edward at the stadium at Sheppards Bush yesterday, was carried out under rather unsettled weather conditions and there was a small audience. The results, however, were highly satisfactory to the American spectators and contestants. John J. Flanagan, Irish-American Athletic Club, New York, broke the Olympic record in the hammer throw and won the first gold medal for any event. M. J. McGrath, New York Athletic Club, was second in the hammer throw and won the first silver medal. The first bronze medal to be awarded went to S. C. Walsh, Canada, who was third in the hammer throw.

Another American success was scored in the twenty-kilometre cycling race, in which L. G. Wientz, New York A. C., qualified by winning the third heat.

WINS 1500 METRE RACE

From a spectator's point of view the meeting was slow but nevertheless the races were well contested and the showing good. The American victories brought forth much American and Canadian cheering.

The final of the 1500-metre flat race today was won by Melvin W. Shepard of America.

The final in the twenty-kilometre cycling race was won by C. B. Kingsbury of England. His time was thirty-four minutes, thirteen and two-fifths seconds. Jones of England was second and Werbrouck of Belgium was third.

The second heat of the three-mile team race was won by America, France second. Time, 14.53.

The fifth heat of the 600 yards cycle race was won by Cameron, the only American competitor.

In the first heat of the fancy driving Geo. W. Goldfarb, Chicago A. A., got first with 82 points and Freyenschmidt German, second, with 78 points.

In the second heat Zurno, German, was first with 3 points and Clark England, second, with 73 points.

The first heat of the three-mile team race was won easily by England which right away from the other competitor took four of her men finishing abreast at the tape. Time, 15 minutes, 3-5 seconds.

The team which won the second heat of the three-mile team race was composed of George V. Blomberg, Irish-American A. C., New York, G. A. Dull, University of Michigan, J. L. Foyles, N. Y. A. C., and E. Trabu, N. Y. A. C. Cohn of Canada did not compete in this heat. The other teams taking part were the French and Swedish.

LONDON, July 14.—The final of the 1500-metre flat race was won by Shepard. America. Wilson, England, was second and Hallows, England, third. Shepard's time was 4 minutes 8-3-5 seconds. He equaled the best time made in the preliminary a yesterday. This he has done by making the distance in 4 minutes, 3-2-5 seconds cut a full two seconds off the record made at St. Louis in 1904 by Lightbody, American.

Walsh of Canada won in the first heat.

ANNOUNCEMENT

SLEEPING TENTS THAT GO IN YOUR BEDROOM

NEW ARRANGEMENT WHICH BRINGS THE NIGHT AIR INTO YOUR ROOM—BETTER THAN SLEEPING OUT OF DOORS—A UNIQUE ARRANGEMENT

To sleep in the house and still sleep practically out of doors is the result of an invention of U. Thomas the young expert, in charge of the business of T. Dahl & Co., 573 Eighth street, Oakland. Thomas has invented an arrangement of canvas which projects from a window, collects the night air and distributes it through a series of air filters over the bed of the sleeper without draft or danger of catching cold.

It is necessary to move the bed close to the window. The sleeping tent, as it is called, is then drawn over the bed and curtains are let down on all sides. The window is thrown open and a section of the tent outside the window is connected with the section covering the bed.

The night air is caught by a patented attachment and passed through the window over the bed of the sleeper.

The advantage of such an arrangement lies in the fact that the air can be thoroughly filtered of dust, dirt and insects before it reaches the sleeper and at the same time be kept fresh and bracing.

There has been a demand for some thing of this kind, ever since people have been brought to realize the advantages of sleeping out of doors.

"I have seen Thor's appliance," said a prominent physician to a representative of THE TRIBUNE today, "and it is thoroughly practical. A great many

Officers Kill Man While Carrying Out the Order of the Court.

REDDING, CAL., July 14.—Shortly Montgomery shot and killed Rom Rimbault in Keswick last evening, while enforcing an order of the court to take possession of Victorie Soule, a seventeen-year-old girl, and deliver her to Mrs. J. J. Crum, whom the court had today appointed temporary guardian. Three weeks ago, he had refused to qualify Sheriff Montgomery. In attempting to take the child was attacked by Mr. and Mrs. Rimbault. "I had to shoot in self-defense," said he, "but I would not have threatened to shoot any one who would try to take Victorie Soule from him. She is a daughter of Mrs. Michael Carantan, who was shot and killed by her husband at Keswick on June 2nd. Sheriff Montgomery, after shooting Rimbault, sent for physicians to care for him."

WOMEN DROWNED WHILE BATHING

Bride on Honeymoon Is One of the Victims Los on Vancouver Beach.

VANCOUVER, B. C., July 14.—In the presence of hundreds of bathers at the English Bay beach, two young women were drowned. The victims are Mrs. A. S. Shepherd, aged 20, wife of a young real estate agent of Calgary, who was with her husband in the city on their honeymoon. Her companion was Miss Eltinge Anderson, 16, who lived with her parents at Virden, Manitoba.

The young women at low tide waded into the water and walked into a hole left by the dredges. Several men swimming near by tried to save them. Another little girl with them, Lota Lewis, was rescued by R. G. Reed, a physician, who very nearly became drowned in a second attempt to rescue the drowning young women. Several expert swimmers dived but could not reach the bodies.

BATTLESHIPS AROUSE ISLAND'S ENTHUSIASM

GIGAM, July 14.—The battleship Maine and Alabama, comprising the naval squadron, sailed today for Manila. During the stay of the battleships here, a board of officers has inquired into the conditions of the island and needs of the people, with a view to offering recommendations to the future government.

Great interest and enthusiasm was aroused at public hearings and numerous meetings, which were preceded by processions with banners. The people petitioned for citizenship, modified laws, schools and were unanimous for a continuance of naval government. Hundreds of well behaved sailors came ashore during the stay of the battleships and were cordially received by the people of the island.

HUSBAND BEATS REAL ESTATE MAN

Alleges That Land Dealer Made Improper Advances to His Wife.

REUREKA, July 14.—Robert Caughell, captain of the farm steamer Antelope, entered the office of G. R. Georgeson, a prominent real estate dealer, and offered a document to him to be copied and signed in his handwriting, which purported to be a confession by Georgeson that he had made improper advances to Caughell's wife. The two men entered a private office and locked the door.

Caughell is reported to have produced a revolver and forced Georgeson to copy the document, but when the signature was reached Georgeson refused to affix his name.

An employee of the Freeman Art company, next door, heard a scuffle and telephoned to the police station for aid. Officers entered the office and placed Caughell under arrest.

Georgeson was found lying on the floor of the office, bleeding profusely, having been struck in the head by the bullet fired at the hands of Caughell. Caughell fired one shot, but failed to hit his man. Georgeson, fearfully bruised and battered about the head from the beating received from Caughell was rushed to the hospital, and at last accounts was not in a critical condition. Caughell was placed under \$5000 bonds.

BOY LIFE SAVED.

Give it with castor oil according to the plain printed directions and a cure is certain. For sale by Owen's, 7th and Broadway and 11th and Washington streets.

A REVELATION
It is a revelation to people, the severe cases of lung trouble that have been cured by the new remedy. It not only stops the cough, but heals and strengthens the lungs. L. M. Ruggles, Reasoner, Iowa, writes, "The doctor said I had consumption, but I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages as sound as a bullet." Sold by all druggists.

THE STURDIEST peoples of the earth drink beer—drink it from childhood to age. And those are the peoples who suffer least from nervousness and from dyspepsia.

When one needs more vitality, the Doctor says: "drink beer."

The barley is food; the hops are a tonic. The trifle of alcohol is an aid to digestion.

The proper drinking of beer—but not the abuse of it—is good for the weak and the well. And not the least of the good comes through flushing the system; in getting rid of the waste.

But a beer to be healthful needs to be pure. And it must be well aged, else the after-result is biliousness.

That is why we are so careful with Schlitz. We double the necessary cost of our brewing to insure absolute purity. And we age the beer for months before marketing.

It gives you the good without the harm.

Ask for the Brewery Bottling.
Common beer is sometimes substituted for Schlitz.

HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these faithful women that **LYDIA E. PINKHAM'S VEGETABLE COMPOUND** comes as a boon and a blessing, as it did to Mrs. F. Ellsworth of Mayville, N. Y., and to Mrs. W. P. Boyd, of Beaver Falls, Pa., who say:

"I was not able to do my own work owing to the female trouble from which I suffered. Lydia E. Pinkham's Vegetable Compound helped me wonderfully, and I am so well that I can do as big a day's work as I ever did. I wish every sick woman would try it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulence, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice, she has guided thousands to health. Address, Lynn, Mass.

CITY COUNCIL ACTS AS A BOARD OF EQUALIZATION

LISTENS TO PROTESTS ABOUT ASSESSMENTS AND REFERS MATTERS TO ASSESSOR.

Through the adoption of the same rules as prevailed last year, organization of the City Board of Equalization was perfected at a meeting of the city council last night. It was stated by Chairman Ellsworth of the council that this was the first year in which the city assessment rolls were on hand the first Monday in July. In his opinion the board will conclude its labors by July 27 and notice was given of that date being officially set.

DEMANDS REDUCTION.

Louis Bruzzone, owner of property at Fourth street and Broadway was the first to appear and demand a reduction of the assessment on his holdings. He argued that although his property was assessed at \$40,000, a sum \$5000 less than last year, he considered the present figure too high. Upon the showing that the protestant was drawing down a nine per cent income from his property, the board was not inclined to go fully into the protest and brought the proceedings in this direction to a close by referring the matter to the city assessor for adjustment.

COUNCILMAN FIXES PRICE.

Mrs. H. L. Barry, who owns property on Market near Thirteenth street, argued that the city's valuation of \$60 a front foot on her property was too high. She declared that if the reduction was not made, she would be obliged to move to San Francisco, where, she alleged, assessments were lower.

Councilman Jackson gave it as his opinion that the property was worth \$110 a front foot and fixed the income at seven per cent. John Barry, appearing for his mother, said that Councilman Jackson could have the property at \$10 a front foot and received the reply that his mother may soon have an opportunity to sell.

REFERRED TO ASSESSOR.

This protest was also referred to the city assessor as was the protest of M. Ellwood, owner of lot No. 28 in the Kellensberger tract. This property was assessed at \$2500 and is valued by the owner at but \$1500.

Julius Heyman, appearing for Mrs. Henrietta Heyman, protested to the assessment of lots 21, 22 and 23, block 58, in the Kellensberger tract at \$13,500, by estimating the value of the property at \$10,500. The protest was referred to the city assessor and the board then took a recess until next Monday night.

BOLD THUGS BEAT UP IN S.F. MERCHANT IN BROAD DAY

One of Robbers Is Captured as He Fights His Victim.

SAN FRANCISCO, July 14.—The crockery store of Frank Takahashi, a Japanese, in 67 McAllister street was robbed by two bold thugs last Friday afternoon, and \$75 was taken. After the proprietor had been beaten about the head and face.

C. L. Kenny, one of the thugs, is now in jail, having been captured by Attorney D. J. Donovan. The robbery is very similar to one committed by Smedes and Dahmer, who are to be hung soon.

According to Takahashi, the two men entered his store about 3:30 o'clock. The place is a small triangular room and there is scarcely space in it for three men. The larger man of the two, and the one who escaped, picked up a cup and saucer and asked the price of them. As he did so Kenny grabbed the drawer, which contained about \$75.

As Takahashi grappled with Kenny, the latter struck him on the face and felled him to the floor. He then jumped on him and beat him further. But the Japanese retained consciousness and struggled to his feet again.

Takahashi, who is about four feet six inches in height, and his assailant finally struggled out the door. The cry of the Japanese had attracted the attention of Attorney D. J. Donovan, who resides at 47 Hill street, and was on his way to the treasurer's office. He ran to the entrance of Takahashi and grabbed Kenny.

YOUNG MAN OLD MAN YOUNG IS THE MARVEL OF GAME

*Tuscarawas, O., Farmer, Has Been Pitching
for Nineteen Years, and Shows No
Sign of Rolling His Hoop.*

CHICAGO, July 14.—Though no ball player in the history of the American League has ever been presented with a testimonial, Cy Young, who is in his nineteenth year of continuous pitching in major league circles, is to be honored one in Boston, Aug. 14. Ban Johnson, president of the American League heartily endorses this movement.

By T. P. MAGILLIGAN.

If late it has been the pleasing practice of sporting writers to talk of the length of usefulness of athletes, and most of those who have gone seeking the "horrible examples" have left out the very man whom the writer considers the marvel of all the living.

He is Denton T. Young of Tuscarawas, Ohio—baseball player in summer and gentleman farmer in winter.

In the race with Father Time this marvel is now in his nineteenth lap with the bewhiskered gent of yesteryear at the last mile post. Denton T. has still out in front and running away.

So far as baseball phenomenons are concerned, Young follows no equal, and no rival has ever shown himself in the race for lasting quality with the old farmer.

Maybe Young has discovered the displaced Fountain of Youth for which an Andalusian gentleman left his Andalusian hills some short matter of time ago.

The Tuscarawas Terror has an armful of accolades, and while he may not be a player, fortune has been kind to him, not made of the same solid substance. He has an active brain, and it does not require the aid of a brace and fist to force an idea into his head.

Early in his career Young depended on speed. He still possesses the speed, but he has also developed good curves and a masterly slow ball. He has a little of everything. He is not pretentious, nor is he foolish. He takes in, tries everything, takes the spit ball once in a while, comes as a tramp used a bath tub rather sparingly.

MAN OF BRAINS.

Young has brains enough to realize that if you pitch the same kind of delivery at a batsman, say for twenty-two or forty-four years, he's liable to get next to you, if he lasts that long. Some Coast League twirlers might get a pointer from this.

Two or three years ago Young pitched the only perfect game known to baseball. It was against the Athleties, and as Mack's men of that date and day were hard hitters the performance is the more remarkable.

Because he has always been a thirty-type sort, Young is well off—worth, ball players say, about \$150,000—but if his chattels went before a Bradstreet or B. & R. Dunn jury the chances are they would not realize much more than \$75,000 as Young's belongings. Still, as Old Cy doesn't have to have the wealthy water on the side with his hand and eggs in the morning, the chances are that he will worry along comfortable like and self supporting after he stops baseball.

At nine-and-a-half longer Young can possibly last as a question. Is a safe bet, however, that those business men whose goats he holds in bondage think that he will last as long as the rich relative.

OLD AS HE FEELS.

They say a woman is as old as she looks, a man as old as he feels. Taking this as a factor, Young will probably last until he's fifty. He is forty-one now, but he looks and acts as though he feels he is still a kittenish cub.

Cy seems to have the tenacity of Tennyson's brook. He started nineteen years ago, has been going since, and looks as though he might go on forever.

The wonderful career of this man should furnish an example to all ball players to follow. Temperately honest, neither gabby nor surly, not given to making a three sheet poster out of himself in front of the hand mirror, with no fondness for being considered a "hot hit," that's him and that's his success: he has drawn and he has built. He has been careful of the corner and avoided the latter. This explains why he has seen more pitchers like Rustie Cuppy, Gumbert, Stoenklin, Svitikoff, Breitenstein, Hoffer, Hughes, Corbett, Hawke and that kind come to grief.

Also in closing we might add that when some of the present stars are doing a waltz around some stepping stone in a dray, or two-stepping with the family wash, that Young will still be a star pitcher.

Nineteen years ago he was the mainstay of the famous Cleveland Spiders,

a murderous bunch of ball players, in which were such pirates of baseball as McLean, and Wild Bill and Tebeau and Jack O'Connor and Jimmy McAleer and such sort. Later he went to St. Louis and was a co-star per-

former with Jack Powell.

For a time Young remained in St. Louis with the National League, but when the Cardinals jumped as a battery to Boston, with Boston Young was just as good as he was with the old bird or St. Louis. He never wavered an iota during these hurricane years of 1903 and 1904, in one of which Boston won a world's championship, and

Young has never known a bad year.

He seldom has had a bad day, and it is not so surprising to see the reason of this as we hit upon the logical conclusion that he knows nothing of bad nights so far as personal contact is concerned.

SLEUTHS AT RACE TRACK FOR HUGHES

Corps of Detectives Securing Damaging Evidence for New York Governor.

NEW YORK, July 14.—It is authoritatively stated in Brooklyn that a special corps of detectives, working under orders from Governor Hughes, have been in Brooklyn for the purpose of investigating conditions at the race tracks as to betting. These detectives are reporting directly to the governor and it is said their reports are to the effect that the law is being violated. There is a belief in Brooklyn that when they have completed their work the Governor will give the authorities here who are responsible for the enforcement of the law a severe shaking up.

Consult
Experienced
Opticians

Incorrectly prescribed glasses increase eyesstrain, deform the eyes, and make of your later years a time of permanently dimmed vision. Such glasses are common enough, but are eye-destroyers and the product of inexperienced opticians.

On the other hand, correctly made glasses save the eyes from strain, increase their usefulness, and for you, if you wear them, the day of dimmed vision may never arrive. Such glasses are eye-builders and are the products of experienced opticians.

We make our glasses in our own factory; our opticians are able, educated and most important of all, experienced. Their glasses are eye-builders.

FINDS WANTED MAN IN PRISON

Sheriff Seeking Alleged Embezzler Discovers Him Safe in His Own Jail.

SHERIFF A. S. DINGOY of Modesto journeyed to Oakland Saturday and enlisted the aid of Sheriff Frank Barret to arrest W. A. Sowers for embezzlement when he discovered that the man he was after walked right into his own jail in the Stanislaus county seat town.

Sowers is said to have been in charge of \$200,000, 300 of which he had embezzled and shipped to San Francisco, receiving a check for \$205,50. He came to Oakland and cashed the check, which caused the Stanislaus county authorities to believe he could capture the man here. Advices were forwarded to Sheriff Barret to hold Sowers should he be apprehended.

In the meantime Sowers' young son got in trouble in Modesto and was arrested.

The father, hearing of this, and the

sons release to take him out of the city, he telephoned to Modesto and immediately took the train for that point.

His desire to assist his son or his total

ignorance of the fact that officers were after him caused him to walk into the jail at Modesto. The jailers welcomed Sowers with a glad hand, but after he was once inside the door it was closed on him and his only way out is to take a chance with a trial jury.
